The Resurrection Temple

The beloved Master Jesus and his mother, Mary, applied to the great Father of Light for the privilege and opportunity of relieving the previous guardian spirit of the Resurrection Flame, offering to take his place and to remain as its guardians, until some other sons and daughters of earth might find it within their own heart's light to assume this wondrous service.

In order to be vested with the power and authority of guarding a cosmic flame, the presence of which is essential to the redemption and freedom of an evolution, the spiritual being making the application must draw that flame, in its fullness, through his own bodies. The Master Jesus offered to render this service at the close of his mission in Judea.

With the help of the present Maha Chohan, whose cosmic service and momentum are builded into the full power of the Resurrection Flame, through the kingdoms of nature, Jesus was enabled to demonstrate the power within that flame in restoring the body to life and the spirit to immortality. He was then vested by Cosmic Law, with the power and authority, together with the beloved Mary, his mother, to guard and sustain the Resurrection Flame from within this temple, where they render this service to the present day.

From the heart of the temple, where the White Fire of the Resurrection Flame pulsates like a great white lily, the angel devas and cherubic and seraphic hosts of the resurrection are constantly absorbing its substance into themselves and then sweeping outward, at the direction of the Masters who are in charge of the direction of the light rays.

Each of the circular corridors receives of the radiation of the flame, mercifully dimmed so that its light and essence may be absorbed and digested by the beings who serve within that sphere of activity. In each such corridor, a Master of Wisdom instructs a group of chelas, who is engaged in the service of learning how to draw this flame and to project it toward a given objective, holding the beam of their attention as the channel and guide along which the light flows into churches, shrines, hospitals, homes, and human hearts.

One of the corridors is devoted entirely to directing the Resurrection Flame into the etheric realm and through the etheric bodies of those who have applied, through their own heart flame, for purification of their own etheric records. The brothers and sisters, who direct the flame, in its etheric vibration, are instantly responsive to those calls made by conscious chelas for the dissolving and purifying of etheric records in nations, continents, old castles, and places where great evils and injustices have been done to life.

In another circular room, with the willing cooperation of the angelic host, the brothers and sisters direct the flame (with the assistance of the Master who guides them), into the astral and psychic realms, rendering tremendous assistance in dissolving the mass accumulations of discord, which manifest as disease of mind and body. From this room, also, are directed the rays in answer to the calls and prayers for the so-called "dead" and the purifying power of these rays does much in assisting "earth-bound" spirits to rise into the octaves of light and to enter school rooms of spiritual endeavors, which will enable them to return in bodies of greater purity and light and thus move forward more quickly in the fulfillment of their God-plan.

From another one of these great circular rooms, the brothers and sisters direct the flame through the vast sea of the emotional realm and through the desire worlds of those who wish to rise above the passions of the senses, sublimating the lusts of the outer self and replacing them by "hunger and thirst after righteousness."

From still another room, the directors of the light rays pour the flame into the vibratory action of the mental bodies of the race and through the tremendous accumulation of thoughtforms which fill the atmosphere,

impinging themselves in the mental bodies of the people, thus blocking the God-directions of the individual Higher Self.

In the outermost court of the temple are the brothers and sisters who direct the flame through the physical structure of those who desire bodies that are absolutely non-recordant to disease. From this court, also, the nature devas and the elemental builders of form, under the direction of the Maha Chohan, supervise the direction of the rhythmic currents of the Resurrection Flame that provide the seasons of growth and harvest.

As the Great White Brotherhood freely partakes of the gifts and blessings of the Resurrection Temple, as well as share in their distribution, and as the mankind of earth are invited to become the guests of the beloved Masters who guard and sustain the flame, there is a tremendous opportunity to those who choose to avail themselves of its restorative powers by the opening of their inner bodies, as well as their physical bodies, to the transmuting, quickening, raising power, which is provided by the God of love for those who choose to accept its blessings and incorporate its power into their individual lives and worlds. ("The Bridge to Freedom Journal, Bk 1", pp. 170-171)

Application of the Resurrection Flame

"Earth Hath No Sorrow That Heaven Cannot Heal" is the name of a dear old hymn, which many of us have sung many, many times. It is absolutely true, of course. Since all originally came forth *from* God, then, following the Law of the Circle everything must eventually turn back to God, there forever to remain in his ever-expanding glory always!

Nothing is ever hopeless! No disease is ever incurable! What appears to be so today has a cure found for it *tomorrow*, and soon that particular disease or problem, as the case may be, has been mastered and its cause and effect obliterated from the screen of life. It has been said that "hope springs eternal in the human breast", and what a blessing that is does!"

There is a panacea for every ill, physical or otherwise, if mankind will persist until he finds it! One of those "panaceas" is the beloved Resurrection Flame which, perhaps because its action, is so obvious and so persistently rhythmic, mankind almost completely overlooks it as being available to him, individually, and as a people. That beloved Flame of Resurrection sweeps through all nature every Spring and stirs into dynamic action the life within the bulb and the seed. It causes that which seemed to be wholly lifeless, to be vibrant and beautiful again. What this flame does for the nature kingdom it *can* and *will* do for us *if we will co-operate with it as the nature kingdom does*. Remember! That kingdom is absolutely obedient to the Presence and command of the Resurrection Flame and so experiences the fullness of its victory. In the case of man, his refusal to so cooperate (because he has the use of free-will) often stands in the way of his reception of that which would otherwise flow to him so freely.

The use of the statement of beloved Jesus, "I AM the resurrection and the life" of whatever it is in which you wish to manifest greater perfection, *will bring that perfection into your outer use* if you will lovingly and faithfully cooperate with the Law of this Resurrection Flame. The use of the words "I AM" set that flame into dynamic action whenever and wherever you direct it, so *use* that statement (if you want more supply, i.e. money or any good thing, for, remember, money is not all we need!) "*I AM* the resurrection and the life of my finances" (repeat 3 times and then follow with "NOW MADE MANIFEST".) Repeat this statement thus for five minutes each time, three times each day – *faithfully* for thirty days. Go about this as systematically as you eat your meals – never miss once – and see what that flame will do for you, even in that short period of time. Remember, God *alone* is the giver of ALL GOOD, and it is *HIS* GOOD WILL to *give* YOU THE KINGDOM – *thus* said the beloved Master Jesus! Wouldn't you like to prove this true for yourself, as well as others? You can! ("The Bridge To Freedom Journal, BK 2, p 502, Frances K. Ekey)
